Assignment Day 1 – CMS

Purpose

This task helps you become familiar with the fundamentals of WordPress by creating pages, posts, a menu, a user, and adding themes and plugins.

A second purpose of this task is to initiate your research and planning for building a portfolio website with a content management system

Due – Thursday, March 14 at 8am

Late assignments will not be accepted.

Directions

Requirements

In your WordPress instance, create an elegant user design and user experience for the CG Law LLP firm. They are looking for:

- Upload 3 images for 3 lawyers. Create a Category called 'Lawyers' and have a post for each of the 3 lawyers and assign the 'Lawyers' category to each lawyer post. Please use the **LawyerText.txt** for content on these pages. Do NOT allow comments on the Lawyer posts.
- Create a Category called 'Practice Areas' and have 3 posts with content associated with that category. Use the **PracticeAreas.txt** file for the text content for these posts. Do NOT allow comments on these posts and ensure they are assigned to the 'Practice Areas' Category:
    o Litigation
    o Insurance
    o Construction
- Create 3 pages. Each page should have an image
    o About Our Firm
    o Home Page
    o Contact Us – integrate google maps (not an image) pointed to #700, 707 7th St Calgary
- Create a menu. Add the 3 pages you created above to this menu along with the 2 categories (Lawyers and Practice Areas)
- Install 2 more WordPress themes
- Install 2 more WordPress plugins from the following list:
    o All-in-one SEO Pack
    o Google Analytics by Yoast
    o Google XML Site Map, or
    o Simple Tags

Required to Receive Grade

- Create a user with username "instructor" and password "password" with admin privileges.
- Install WordPress plugin Duplicator
- Click Activate and then Manage
- Create New Package
- Leave all the settings on their defaults and Click Next

- Make sure your scan passes
