Group Assignment Day 4 – CMS for the Town of Pincher Creek (PincherCreek.ca)

Purpose

This task helps you become more familiar with the fundamentals of WordPress by installing a new instance of WordPress on a remote server, creating pages, posts, a menu(s), users, and adding themes and plugins.

A second purpose of this task is to get practice working with a team – learning how to split up the responsibilities for a project and ensure all the requirements are covered across a larger website implementation of WordPress.

Due

Your team will present your website to the rest of the class and the instructor during the afternoon of Day 4. Presentations begin at 1:30pm.

Directions

The Town of Pincher Creek, Alberta is looking for a new web site. The current site they have is an old design and not responsive.

They have the following requirements for their proof of concept:
- design a website that would encourage people to come visit the Town. It must have an 'inviting' look and feel. Colours and fonts are up to your discretion.
    - o For the sake of time, use images you find on the web about Pincher Creek (or Alberta towns, towns on the prairies) for your site
- Use the text from the current pinchercreek.ca site for content in these pages below. Try and get as much of the site map completed and working as you can.
- Have a menu on each page of the site that displays all the pages created with the hierarchy of the site map below.
- Have links and icons to social media.
- Create and implement a favicon for the site.
- Be prepared to answer questions about the justification for your design (why you used the design you did and how elements of the design relate specifically to The Town of Pincher Creek.
- Delegate tasks strategically based on strengths and weaknesses of your team. Create users in WordPress for each member of the team and ensure that they all have a part to play in creating the site in WordPress.

Build out the site with the following site map:
